The Health and Social Care Forum is open to all organisations, groups and agencies that are promoting health & wellbeing and tackling health inequalities in Bassetlaw and Nottinghamshire.

This will be our second forum, following on from a really successful initial event that took place in September 2017. It's an opportunity to network and create connections, as well as a chance to keep up to date with news from relevant speakers and organisations.

January's speakers will be confirmed in the New Year.

Follow BCVS on Facebook or subscribe to our newsletter at BCVS website <http://www.bcv.org.uk/> to find out more.
