

The Nottingham General Dispensary

Registered Charity Number: 228149

The Nottingham General Dispensary is a medical Charity where grants are awarded for the purpose of assisting individuals resident in the City and County of Nottinghamshire who are sick, convalescent, disabled or infirm by providing or paying for items, services or facilities which are considered to alleviate the suffering and/or assist the recovery but are not readily available to them from other sources.

Grants are also awarded to organisations to enable them to provide necessary relevant services and facilities for individuals.

The Trustees of The Nottingham General Dispensary propose to make grants totalling £75,000 in the coming year and are particularly interested in considering applications on behalf of disabled or sick children and young people, but of course will consider all applications which fit the criteria of the Charity.

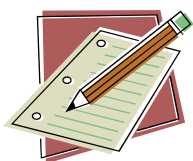

Typical grants are in the region of £500 for individuals and £2,000 for organisations.

In the course of the year, the Trustees may consider making larger grants to organisations in exceptional circumstances.

Applications made by/on behalf of **individuals** should be made using an application form. Please note that applications must be supported by medical evidence (such as a letter from a GP, consultant, support worker etc) confirming that the item is required due to the applicant's medical condition.

Organisations applying to The Nottingham General Dispensary can apply in writing giving full details of what the grant is required for together with details of individuals in the Nottinghamshire area (by first name and postcode if necessary) who will benefit from any grant made by the Charity.

Completed applications should be sent to:

**Anna Chandler
The Nottingham General Dispensary
Cumberland Court
80 Mount Street
Nottingham
NG1 6HH
anna.chandler@freethcartwright.co.uk**

Please note that in all cases each application is considered on its own merits
